Along with your signature, you the applicant should meet with the chair of your major department at the University of Mississippi to get his/her signature before submitting this form. Among other reasons, this allows you to meet the chair and perhaps discuss research opportunities in the department.

If known, describe the type of capstone experience you plan to do or are doing, including the academic terms in which the research and thesis will be done.

What do you hope to gain by participating in the SMBHC Honors Scholars program?

(Over)

Honors Scholars program students must take at least one 3-hour honors course in addition to any credit earned for the capstone experience. In reviewing past honors course offerings (<https://www.honors.olemiss.edu/honors-courses/>), what courses might most meet your needs or interests?

One requirement of the Honors Scholars program is community action, everything from traditional community service to involvement in a course to address a community need (for more information, visit <https://www.honors.olemiss.edu/students/special-programs/community-action/>). How are you involved in giving back to your community.
